

Panka2020

The target of Panka2020 project is to significantly strengthen Pankaboard's competitiveness as a manufacturer of specialty cartonboards. In line with the chosen strategy, Panka2020 project focuses on investments in the mill production capability to produce high value specialty cartonboard products for selected end uses. The aim is to increase company's turnover and profitability. This will further strengthen the well-being in North Karelia and the city of Lieksa by increased subcontracting and creation of new jobs. Investments will be carried out in accordance to environmental values.
