

Some positive news in a world of turmoil

We are living extraordinary times that nobody has experienced before. This put pressure on all corners of our society.

At Pankaboard we contribute by keeping our operations running as normal, to enable urgent and vital material supplies to our customers. All our products are produced on a regular basis as before, despite of the ongoing crisis. Naturally the production environment has been efficiently secured and isolated to keep our people safe and operations running. Supply chain is working as normal, operated by our talented customer service team. We are ready to react – let us know how we could help you!

Take care out there and stay safe.
We will overcome this situation together.

Sincerely,

Pasi Piiparinen, COO & The Pankaboard Team
